Hi everyone,

Great news! We got the reviewers' comments on our EHP submission. Their comments are positive and their suggestions are relatively minor (please see below).

I will work on preparing a revised manuscript and response in the next week and then hopefully we can resubmit by the end of April.

Thank you all for your help,
Nadine

Ref.: Ms. No. EHP6837

Poorly understood PFAS generated as byproducts of fluorochemical manufacturing are in the blood of children and adults living in Wilmington, North Carolina
Environmental Health Perspectives

Dear Dr. Hoppin,

Your manuscript has been peer-reviewed, and the comments of the expert reviewers are provided below. Based on these comments and the recommendation of the participating Associate Editor, this manuscript may become acceptable for publication in EHP if adequately revised to address these comments.

To submit a revision, go to <https://www.editorialmanager.com/ehp/>, log in as an Author, and select 'Submission Needing Revision' from the menu to access the submission record for this manuscript. Please include the following items with your response:

- * Indicate all proposed changes on the most recent version of your main manuscript file using the Microsoft Word tracking feature. Upload the tracked file into Editorial Manager as a 'Tracked Changes' file.
- * Upload a clean version of the main text file with all changes accepted. Upload the file as a 'Manuscript' file.
- * Provide point-by-point responses to all questions or requests from reviewers. You may copy your responses into the text box provided on the revised submission form, or upload them as a separate 'Responses to Reviewers' file.
- * If your final manuscript includes Supplemental Material, upload a clean version of the Supplemental Material file. If your Supplemental Material comprises multiple files and/or formats (e.g., Excel files, video files), upload one copy of each file. These files should be labeled as 'Supplemental' files in Editorial Manager.
- * If the main text of your manuscript includes revised figures, upload a separate file for each revised figure.

Your revision is due by Jun 16 2020 11:59PM. If you need more time, you must contact us BEFORE THE DUE DATE at ehpsubmissions@niehs.nih.gov. Please note that the Associate Editor may send the revised version back to one or more reviewers based on the nature of the revisions.

Thank you for submitting your manuscript to Environmental Health Perspectives. We look forward to receiving your revision.

Sincerely,

Jane Schroeder
